Electronic distribution limited to single classroom use only.

Not for public display.

Initial Sound Sort

Preparation:

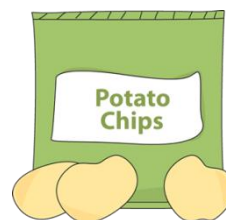

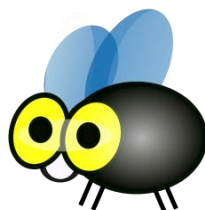

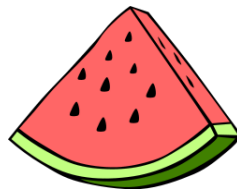

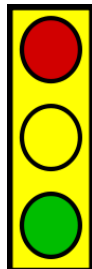

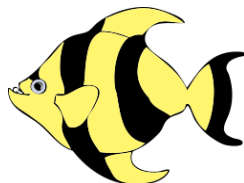

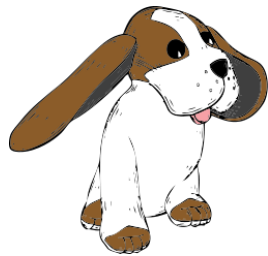

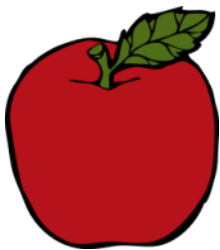

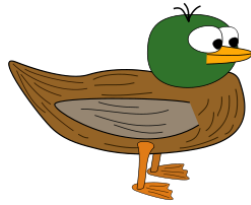

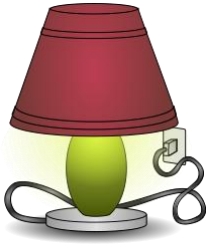

- Copy one set of pictures and one sorting mat per student. Do not double side them, as the students will be cutting out the pictures.

Suggestions for use:

- Have students cut out the pictures.
- Have students sort the pictures by their beginning sound. Students can glue down the pictures in the appropriate columns.
- For an extension, students can write the word that is depicted by the image alongside the picture.
- Please note that each sort comes with two different kinds of sorting mats. The first one contains all of the letter categories on one page; however all of the pictures will not fit on this page. The second version contains each of the letter categories spread out among 2 pages; all of the images will fit on these pages making it more convenient when students are going to be gluing

the images to the page. Please use whichever mat works best for you and your students.
